WHY CHOOSE INDUSTRIAL USPS?

1	Instant Failover Switches to backup the instant mains power fails causing zero interruption to the embedded computer.	2	Data & OS Protection Prevents the file corruption and OS crashes caused by sudden, unscheduled power loss.
3	Safe Shutdown Up to 60 minutes of runtime gives operators time to save settings and shut down cleanly.	4	Auto-Resume If power returns within the backup window, the computer just keeps running. No reboot needed.
5	Plug-and-Play Kit Ships with power, computer, and battery cables. Ready to install on existing setups.	6	Live Status Display Onboard display shows real-time output voltage and backup time.
